Eilon & Associates was a group of highly experienced investment bankers able to give independent, unbiased advice on capital raising and M & A .

Unbiased advice derived from the fact that we did nothing other than give advice – we wrote no research; made no loans; underwrote no new issues, and had no contractual relationships with, or obligations to, investors.

With the retirement of the Founder, Amir Eilon, the company has now closed.

Amir Eilon
Director

Amir was the Founder of Eilon & Associates, aiming to advise companies, funds and VC's on their approach to the capital markets and strategic corporate transactions. Amir was an Investment Banker for over thirty years, most latterly with CSFB, BZW and Morgan Stanley.

Amir is Chairman of Articheck, an art-tech company and Director of Tidal Electric, a renewable energy company, and iNED of Alcentra, a fixed income asset manager.
